zerowaste\_ep Elevation Grpup and their WONDERfull events are huge proponents of zero waste.

By including recycling, compost, and reuse (via water refill stations) they've greatly reduced their environmental impact and helped make their events more sustainable.

Check out more of their events coming up this year including @wonderstruckfest (Cleveland), and @wonderbusfest (Columbus) and help support their great events.

## Mid-Size Festivals Help Salvage 2021 AND CONTINUE TO GROW

By [Author Name]

THE INDIE ALTERNATIVE

It's a common refrain among festival organizers and attendees alike: "Mid-size festivals are the lifeblood of the industry." And for good reason. In a year where major festivals were canceled or severely impacted, mid-size events provided a lifeline for artists and fans alike. These festivals, often held in local venues and communities, have not only survived but thrived, drawing in loyal audiences and providing a platform for emerging acts. The industry is looking to these events as a model for how to sustain and grow in the future.

Pittsburgh has its local band festivals, like Millvale and Deutschtown, and we get touring fests, like Outlaw and Knotfest, but there's nothing like Maple House, a one-day buffet of high-caliber national acts.

Denny

just wanted to drop you a note to say thanks. Nothing but good vibes from you and the Wonderstruck team reported back to me. It means a lot as we struggle through the chaos of the times. Zach mentioned he had a good long conversation with you.

Thanks for being one of the good ones.
